
MURRAY RIVER GOURMET

GRINDER SALT

AUSTRALIA'S ORIGINAL GOURMET PINK SALT

Naturally pink.

Rich in naturally occurring beneficial minerals

Murray River Salt® has created a coarser blend of their award winning salt so that it can be placed in a grinder unit.

Murray River Gourmet Grinder Salt is produced from ancient saline waters sourced from underground aquifers found in Australia's Murray Darling Basin region.

By intercepting these underground aquifers, which would otherwise enter the Murray River; we are helping towards the efforts to combat Australia's inland salinity problem.

The naturally occurring minerals found in the ancient saline waters produce a uniquely pink hued salt.

Murray River Gourmet Grinder Salt is ideal as a finishing salt or for cooking. It truly is the perfect finish for any dish.
